

TWILIO ACCOUNT:

The screenshot shows the Twilio Console interface. At the top, the header includes the Twilio logo, a search bar, and navigation links for 'Account', 'Billing', and the user 'Mownika'. Below the header, the main content area is titled 'Ahoy Mownika, welcome to Twilio!' and includes the instruction 'Learn to build your first SMS app by following these steps.' A five-step progress bar is displayed: 1. Get a number, 2. Send your first SMS, 3. See an app demo, 4. Follow the tutorial, and 5. Scale your application. The first step, 'Get a number', is highlighted. Below this, a section titled 'Step 1. Get a Twilio phone number' explains that a virtual phone number is needed. It states: 'To send or receive an SMS with Twilio, you will need a virtual phone number from Twilio. A virtual phone number is a standard telephone number that is not locked down to a specific phone. It can route a voice call or text message to any phone or application workflow. In addition, you will need Twilio account SID and Auth token to connect Twilio with your application.' A note mentions that trial accounts can get one free USA or Canadian phone number, but local numbers require an upgrade. The left sidebar contains navigation links for 'Develop' and 'Monitor', with sub-links for Studio, Functions and Assets, Phone Numbers, Messaging, and Voice. The bottom of the screen shows a Windows taskbar with various application icons and system status indicators.

This screenshot shows the 'Account Info' section of the Twilio Console. At the top, there is a button labeled 'Get a Twilio phone number'. Below this, the 'Account Info' section displays the 'Account SID' as 'AC7f171003a65849e5838d8d775ea89877' and the 'Auth Token' as '901896bdb4b518a94618d873a351a47e'. A warning icon and text advise users to 'Always store your token securely to protect your account.' and provide a link to 'Learn more'. Below the token, a message states: 'You are on a trial account. You can only send messages and make calls to [verified phone numbers](#). Learn more about your [trial account](#).' To the right, a 'Helpful links' section includes links for 'How does Twilio work?', 'SMS Quickstart guides', and 'Support help center', each with a brief description. The left sidebar and Windows taskbar are consistent with the previous screenshot.
